LITTLE DAFFODILS

From
DREW SHERRARD,
ROCK SPUR,
OSWEGO, OREGON

The small wild daffodils are charming in rock gardens or near, but above, a pool. They belong in children's gardens too, and a little group of them in a pot makes a fascinating gift for an invalid child. The supply is limited, so orders should be placed promptly for early delivery.

The earlier they are planted in the fall, the better.

	Ea.	Doz.
NARCISSUS BULBOCODIUM—		
<i>(Hoop Petticoat Daffodils)</i>		
Citrinus (sulphur) 6 to 8 inches, moist sandy peat soil, no ma- nure	\$.25	\$2.50
Conspicuus , (yellow) 6 inches, sandy peat soil, no manure; moisture while blooming, but not in summer20	2.00
Monophyllus (white) 6 inches, very early bloomer, warm sunny, well drained place, sandy soil....	.25	2.50
NARCISSUS MINOR , largest of the <i>Rock Daffodils</i> , 6 inches, sandy loam. Scarce60	6.00
NARCISSUS NANUS , the middle-sized Rock Daffodil, 4½ inches, in my ex- perience, hardier than minimus; sandy light loam25	2.50
NARCISSUS MINIMUS . 3 inches, but "every inch a daffodil." Sandy peat soil30	3.00

NARCISSUS TRIANDRUS, bunch flowered daffodils with drooping bell-shaped cups, and flyaway reflexed perianth—

Albus , <i>Angel's Tear Daffodil</i> , cream white, 7 inches, shade, gritty soil, well drained place, no manure, no water during summer20	2.00
Concolor , pale primrose, treat like albus. Scarce65	6.50
Pulchellus , creamy cup. pale yellow perianth, treat like albus....	.60	6.00
Calathinus , exquisite white flowers, larger than those of albus; flattened, stiffly curled foliage. Treat like albus, but add a little peat to the soil75	7.50

NARCISSUS CYCLAMINEUS , the <i>Cyclamen Daffodil</i> , bright yellow, with tightly upturned perianth, an elfin thing 6 inches tall. Sandy peat soil and moisture but not stiff, boggy ground. (See cover picture)30	3.00
--	-----	------

NARCISSUS JUNCIFOLIUS , a tiny yellow fragrant jonquil. Partial shade, gritty soil, well drained place in rockery30	3.00
--	-----	------

NARCISSUS JONQUILLA , single jonquil, fragrant, rich yellow, 13 inches. Blooms with grape hyacinths in May	.10	1.00
Same, double10	1.00

PSEUDO-NARCISSUS MOSCHATUS , a daffodil with a drooping perianth, cream color, 6 to 8 inches. For naturalistic planting in partial shade....	.30	3.00
---	-----	------

NARCISSUS SEROTINUS , an autumn flowering kind, white perianth and golden cup, 10 inches. Warm protected spot, protect with light mulch in winter50	5.00
--	-----	------

NARCISSUS CANALICULATUS , like a miniature Chinese sacred lily, with yellow cups and cream perianth, bunch-flowered, fragrant. Give it sunshine and good drainage20	2.00
--	-----	------

HYBRIDS OF SMALL SIZE

	Ea.	Doz.
Queen of Spain , a natural hybrid of Triandrus parentage, soft yellow, with long bell trumpet and turned-up perianth, graceful in naturalistic planting20	2.00
February Gold , Cyclamineus hybrid, orange trumpet and lighter perianth, 13 inches40	4.00
March Sunshine , also a Cyclamineus hybrid, slenderer and more graceful than February Gold60	6.00

NATURALIZING MIXTURES

	Per 100
Flower Border and Naturalizing Mixture. A variety of types	5.00
Special Mixture, good field grown Northwest bulbs	3.50

BULB GIFT FOR A CHILD—

12 bulbs, 2 each of six sorts. chosen for their appeal to a child, by a gardener who knows bulbs and children too. Six little painted markers and a letter to the child, telling what bulbs are, why these are chosen for his gift, how to plant them. All done up in a cellophane packet\$1.00

Terms: Orders accompanied by cash, delivered post paid. Orders not accompanied by cash will be sent express collect. Orders will be filled as far as stock is available, as soon as bulbs are ready for delivery. All bulbs will be true to name, but no guarantee can be given as to the results of planting or forcing, after they leave my hands.
